

# WE KNOW YOU LOVE LBI...

**DO YOU WANT TO SEE ...** an imposing “wall” of several hundred 853-foot turbines **just 10 miles from our beaches** and clearly visible day and night?

**DO YOU KNOW ...** Atlantic Shores plans to build the **most visible modern wind project** in the world off the entire coast of LBI?

**DO YOU KNOW ...** there is a **much better location farther off LBI's beaches?** The Hudson South Call Area is 30 - 57 miles from our coast. It will avoid the visible impact, offers much more wind energy & was screened & approved by the federal government for wind turbines.

**DO YOU KNOW ...** the government has **not conducted a comprehensive assessment of this project on marine life, including endangered species?** Or the impact on commercial & recreational fishing & boating safety?

## IT'S NOT TOO LATE!

- We are a fast-growing non-profit, non-partisan coalition of LBI homeowners, business owners & visitors.
- **Our mission:** to save LBI from the proposed Atlantic Shores wind turbine project which will devastate our economy & environment and to ensure the project is moved to the Hudson South Call Area.
- We are proponents of sensible approaches to alternative/renewable energy. We are opposed to the current location, scope & size of this project as proposed by Atlantic Shores, a joint venture of two Europe-based companies.
- To that end, we have submitted a detailed proposal to the Bureau of Ocean Energy Management (BOEM) to add Hudson South as an alternative to the current wind lease area just ten miles off our coast.

## Economic damage, business closures, job losses ...

The proposed project will devastate our tourism-based economy, property values & businesses, including:

- **Significant reduction in visitors** to the island annually\*
- **Hundreds of millions in lost tourism revenues** annually which will substantially reduce tax revenues LBI needs to survive\*
- Millions of dollars in **lost income from rental properties**\*
- **Million-dollar losses in property values**\*

## TALK WITH IMPARTIAL EXPERTS

**Join us on June 23rd at 7:00 pm EDT for a live meeting**

- Hear from impartial experts & officials who are not compensated by Atlantic Shores
- Get real answers to your questions
- Save the date & check out our website: [SAVELBI.org](http://SAVELBI.org) for more information on how to join us

## WANT TO VOLUNTEER OR DONATE?

- Visit [SAVELBI.org](http://SAVELBI.org)
- Check out the myths vs. realities of this project
- Learn more about the technical aspects & our solution
- Review the research conducted by impartial experts
